It is their vision to bridge the gap of these music genres together musically so that each has its distinct sound, yet they are complimentary to each other. R.E.G. is forging the real sounds of today with flavors of the Blues, Jazz, Country, R&B, and Latin rhythms in order to produce a more unique sound signature coming from this label.

We are taking an active role in our productions to present the romantic lyrical content and rhythmic instrumentation that can be found in the current and past Latin, R&B, and Jazz love songs. R.E.G. will be producing various types and styles of music that will appeal to the global market.
